BOB BURNS PROPOSED AMENDMENT NO. 3

TIME/DATE PREPARED: April 10, 2015

RECEIVED

COMPANY: Resource Planning and Procurement in 2013 and 2014 AGENDA ITEM NO.: 25

DOCKET NO.: E-00000V-13-0070

OPEN MEETING DATE: APRIL 15, 2015

DOCKET CONTROL

At Page 11, Line 16, INSERT new sentence after "2016 IRPs."

Prior to the utility-hosted pre-filing workshops, the Commission may opt to host its own public IRP workshop(s). The workshop(s) could be used to provide clarity regarding what the Commissioners, Commission Staff, stakeholders and interested parties want to see discussed at the utility-hosted pre-filing workshops.

At Page 11, Line 18, after "key assumptions," INSERT:

used in IRP development, including but not limited to: future fuel prices, population growth rates, discount rates, how new technologies will be appraised, new technology adoption rates, customer preferences, assessment of impacts of future state and federal regulations, resource costs, and load forecasts. The workshop(s) would also be an opportunity to discuss and define

At Page 11, line 18, delete the comma after "costs"

At Page 11, Line 20, INSERT ", inclusive" after "interactive"

At Page 11, Line 25, INSERT new sentence after "next IRP.":

The Commission may choose to host an additional workshop or workshops at the conclusion of the utility-hosted workshops.

At Page 14, Line 4, INSERT NEW ORDERING PARAGRAPHS:

IT IS FURTHER ORDERED that Arizona Public Service Company, Tucson Electric Power Company, and UNS Electric, Inc., shall hold public pre-filing workshops prior to detailed portfolio planning and analysis in their future IRPs. The purpose of these pre-filing workshops would be to provide stakeholders an opportunity to discuss and define key assumptions used in IRP development, including but not limited to: future fuel prices, population growth rates, discount rates, how new technologies will be appraised, new technology adoption rates, customer preferences, assessment of impacts of future state and federal regulations, resource costs, and load forecasts. These workshops would also be an opportunity to discuss and define resource portfolio concepts at a point in the resource planning process when study variables can have the most impact on the direction of future resource plans.
